Duke Energy Carolinas, Llc Annual Review of Base Rates for Fuel Costs  
Docket No. 2018-3-E

STATE OF SOUTH CAROLINA  
BEFORE THE PUBLIC SERVICE COMMISSION  
DOCKET NO. 2018-3-E

IN THE MATTER OF:	)	
	)	
Duke Energy Carolinas, LLC Annual	)	PETITION TO INTERVENE
Review of Base Rates for	)	
Fuel Costs	)	

I Terry Scott Griffin am a entity that has continually had my efforts to bring action and attention to the facts that have evaded acknowledgement that must be given as the records were provided threw a FOIA request at the beginning of my investegation into what I would not know would turn out to be the most complex mess of actions that have fully ~~been the cause of complete disruption in my life as well as my family's.~~

1. I have evidence pertaining to the hearing that I wish to present that has principal information that has been a tool aiding the efforts to have gross amounts of filings of "forward looking statements" all of which expect the assets that are be registered to be unrealized.
- 2.I have tried multiple times to take action to resolve the issue at hand that continues its strategy of complete avoidance of anything but the original plan as it had been assumed to be carried out originally. The fact is, that I am a very good person that has lost nearly more than a person could begin to understand as events of a magnitude that give motivation to professionals in multiple fields to over assert there motives upon the consination of the underlying deal that it has completely hindered the possibility to avoid

the rights that I have for procurment and for optional means of restoration in which it is in my good nature to not act upon others as they have upon myself. Meaning I have lost to much nor have I ever had the mentality to be so cold to another human being as those of record have been to myself. By those I mean ones I directly hold the documentation to prove without a doubt harmed my life and knew before, during, and after what they had done to get what their strategy was implemented for.

3. I have rights that are to not be ignored and to not fight or cast public attention upon specific people nor events, though if the situation was inverse I gurantee that all of which continue to show what they stand for and what they will do for a certain gain would wipe the floor with me if they had the evidence of the intent and the loss that I have incurred and they were not in a discriminated position due to the lack of disclosure combined with the neglect to allow the time to learn what was needed to be able to report quarterly and annually the filings that are required in regards to the ownership of what the tax assesment and further research proves to be special interest in securities.

4. Documents of confidential status I will not give reference to as I am and have always tried to maintain a professional communication the closest I can erect in lines with an actual legal representative. Though once again, threw research, there proves to be numerous restrictions or cease and desist orders that dissolve any possibility of retaining legal help or anything but receive more misdirection or inaccurate suggestions.

5. Some of the petitions I have noticed pray to be allowed to participate as to be able to attain complete records of detail so that they will be able to encourage maximum public participation. The fact is, that they would have these details if they were in a just and right position to be taking part in anything to do with the subject matter. I have no want to participate to supplement details that if the matter concerned me and I wasn't searching for a handout I would already know.

6. I am and have always wanted nothing more than what is right and just. This is not a system that is allowed to create a criteria to allow invasion of privacy of a life after the infliction of damage that derails the entities course of progression to excuse or omit acts of serious criminal degrees. ~~If that is the stance for what there isn't an excuse for. I wish~~ not to dwell on the past but simply be acknowledged for what I am and that is the probably most vital part of the execution of a very extensive plan that without my being misled and completely victimized would have not been able to been carried out.

7. Pro Se Petitioner

WHEREFORE, Petitioner prays for the following relief:

A. That Petition to Intervene be accepted and that the petitioner be made a party of record;

B. That Petitioner be allowed to participate fully in this preceeding and take such position that it deems to have right to; and

C. For such other and further relief as is just, proper, and inevitable given the circumstances, but that petitioner understands and wishes to work in as much of a private manner as persons pertaining to the evidence would most likely wish so long as inclusion and the end and final result be an mechanism of effective, full functioning, and finally solid footing working together from a foundation of truth acknowledged and made appropriate for the record however it may be decided to be handled.
